

# AISP Network Meeting 2026

WEDNESDAY, JUNE 10 • PHILADELPHIA, PA

**8:15–9:45am**

▶ Banquet Salon

## **Beyond the Prompt: A Highly-Caffeinated Hands-on AI Workshop for Social Policy Leaders with Josh Martin**

Pre-registration required. Please bring your laptop to this session.

Ready to move from AI curiosity to AI capability? Join former Indiana Chief Data Officer Josh Martin for an interactive, hands-on workshop designed specifically for the social policy community. Using Josh's secure platform, you will learn how to harness the power of multiple AI models to automate research summaries, synthesize public data, and draft policy briefs, all while seeing firsthand how modern governance keeps data safe.

**9:30–10:15am**

## **Breakfast**

**10:15–11:15am**

▶ Banquet Salon

### **WELCOME PLENARY**

## **Warm-Up & AISP Updates**

**Isabel Algrant, Dennis Culhane, Amy Hawn Nelson, Della Jenkins, Deja Kemp**

It's hard to believe it's been 2 years since we have all been together! In this full-group session, we're going to orient new friends to this community and update everyone about what the AISP team has been up to. We will take some time to reflect on how we see the public data ecosystem and our places in it, and then do some visioning for where we would like to be by the next AISP Network Meeting and how we at AISP can support your data integration efforts.

**11:15am–12:30pm**

▶ Banquet Salon

### **PLENARY PANEL**

## **Governance in 2026**

Moderated by **Della Jenkins**

- **Carl Frederick** (Wisconsin)
- **Katie Breslin** (Connecticut)
- **Aimee McLaughlin** (DC)
- **Qaira Stead** (Philadelphia)

The administrative data landscape has changed significantly over the past few years. Between drastic changes at the federal level and the rapid development of new technologies, many AISP Network members have made shifts in their governance processes. This panel, composed of representatives from DC, Philadelphia, Wisconsin, and Connecticut, will highlight the approaches of four network sites at different stages of IDS development as they work to combat these challenges and practice strong cross-agency governance and collaboration.

# AISP Network Meeting 2026

WEDNESDAY, JUNE 10 • PHILADELPHIA, PA

12:30–1:15pm

## Lunch

1:15–2:30pm

## Concurrent Sessions

### SESSION 1

### Legal Landscape Updates

▶ Banquet Salon

Moderated by **Deja Kemp**

- **Meghan Mead** (NPHL)
- **Amelia Vance** (PIPC)

This session will provide a timely update on the evolving legal landscape of data sharing and will explore emerging legal trends and practical implications of these changes. Deja Kemp will provide an overview of AISP's recent legal work, including new publications, tools and key areas of focus. She will also discuss the current federal litigation landscape with particular attention to developments related to Executive Order 14243. Amelia Vance will share insights on the federal children's data and privacy landscape. Meghan Mead will cover key federal public health law developments.

### SESSION 2

### The IDS Technology Landscape

▶ Drafting Room

Moderated by **Amy Hawn Nelson**

- **Aaron Bean** (Asemio)
- **Nick Occhipinti** (Charlotte-Mecklenburg)

Technology is a critical piece of the IDS puzzle that is multi-faceted and constantly evolving, so it is always difficult to capture the current landscape of technical approaches comprehensively across the Network. This session will highlight how two network sites—Charlotte-Mecklenburg and Connecticut—have developed their tech stack, including steps they took or are piloting to further enhance privacy and data quality. These examples will provide the foundation for a generative activity to better understand your own tech stack and how it compares to peers. Please join us to help map this complex tech ecosystem and inform how AISP can better support your technical needs in the future.

2:30–3:15pm

## Networking Break

# AISP Network Meeting 2026

WEDNESDAY, JUNE 10 • PHILADELPHIA, PA

**3:15-5pm**

▶ Banquet Salon

## PLENARY PANEL

### Use Case Lightning Round & Moderated Discussion on Moving from Data to Impact

Moderated by **Della Jenkins**

- **Dana Bernson** (Massachusetts)
- **Regan Foust** (California)
- **Danny Galpern & Casey Henderson** (Philadelphia)
- **Rachel George & Sydney Idzikowski** (Charlotte-Mecklenburg)
- **Francisca Richter** (Cuyahoga County)
- **Heather Rouse** (Iowa)

Integrated data systems are designed to enable better, faster, smarter decision-making about how governments can support their residents. While many of us like to nerd out on methods, we all know the real magic happens when we move from data insights to action. This session will highlight the impact of six network sites (MA, CA, Philadelphia, Charlotte-Mecklenburg, Cuyahoga County, and Iowa) through use case lightning talks. We will then engage in a moderated panel discussion to explore strategies for research translation, advocacy, and the complex question of how we measure IDS impact.

**5-5:30pm**

▶ Banquet Salon

## Closing Remarks

**Elizabeth Nash** from the Annie E. Casey Foundation

## Pete Bailey Award

**Dennis Culhane** proudly presents the 2026 Pete Bailey Award to **Maryanne Schretzman** from NYC Center for Innovation through Data Intelligence (CIDI)

We will end the day with closing remarks from one of our Network funders, as well as the presentation of our Pete Bailey Award.

The Pete Bailey Award honors achievement in public systems integration and is presented biennially to a network member who embodies a commitment to peer learning and public service. Join us to celebrate this year's awardee!
